

## BEHAVIOUR MANAGEMENT

Behaviour Management at St Patrick's School is based on the dignity of the human person.

Created in the image and likeness of God, each human person has an innate dignity and a right to be treated with respect.

St Patrick's has clear standards of behaviour required. Fair rules are set out, and must be followed.

Gospel values such as honesty, justice, integrity, compassion and love must be apparent in all situations where behavioural issues are addressed.

Behaviour Management at St Patrick's:

- Is linked to pastoral care;
- Is proactive in nature;
- Ensures the health, safety and welfare of all;
- Supports the "duty of care" requirements; and
- Ensures the right to teach and the right to learn.
